

Changes to the Before and After School Learning and Safe Neighborhoods Partnerships Program (B/ASLSNPP) as a result of the passage of Proposition 49:

- ◆ Re-names the initiative to the **After School Education and Safety Program**
- ◆ Emphasizes universal eligibility; expands eligibility for schools beyond high-poverty schools, with lower funding levels (\$50,000 for elementary; \$75,000 for junior high/middle schools)
- ◆ Adjusts funding priority:
 - Priority 1:** Current B/ASLSNPP grantees maintain funding level received in FY 2003-2004
 - Priority 2:** Universal grants available to all schools that submit quality applications (elementary schools eligible for minimum grant of \$50,000 and middle schools eligible for minimum grant of \$75,000)
 - Priority 3:** Applications for new grants may receive funding beyond minimum if proposing to serve schools where a majority of students receive free or reduced-cost meals
 - Priority 4:** Once all qualified applicants have received funds, would also allow funding for:
 - Large school adjustments;
 - Before school component programs
- ◆ The After School Education and Safety Program encompasses the previously legislated B/ASLSNPP program and adds the following:
 - Local law enforcement agencies must be included in program planning as a part of the local collaborative
 - Computer training, fine arts and physical fitness are added as possible enrichment components
 - Programs may be in locations other than school sites if they meet the same standards as school sites and if and safe transportation is provided
- ◆ The funding increase for the After School Education and Safety Program is available any year beyond FY 2004 that State Budget is at least \$1.5 billion over the prior year budget. The amount beyond the \$1.5 billion increase becomes available to fund additional after school programs consistent with the initiative. The Legislative Analyst's Office anticipates that this increase will occur in July 2004 and that the full \$550 million would then be available to fund programs based on the priorities stated above.
